

# Exemple de projet Numérique 2020/2021

Les acteurs du projet :

Turkey and France

## Descriptif succinct du projet

Our project is to send emails, videos or letters to improve our students English skills(writing and talking) using a real situation of communication. Our students are new English learners so they would learn how to introduce themselves, describe their tastes , their environment ....It would also be a great opportunity to discover another culture.

learn vocabulary and English expressions :how to introduce themselves and ask questions to the others (name , age ,living place,family) / say what they like (sports , food , music....)/describe their environnement/send recipes (typical from our country ) to learn how to say the ingredients...

- improve their fluency(by sending videos)
- improve their oral understanding (by receiving videos)
- improve their writing skills (by sending letters , e-mails)
- improve their writing understanding (by receiving letters , e-mails)
- discover another culture , another way of life
